

THE ROLLING STONES

STONES IN EXILE

In the spring of 1971 the Rolling Stones departed the UK to take up residence in France as tax exiles. Keith Richards settled at a villa called Nellcôte in Villefranche-sur-Mer and this became the venue for the recording of much of the band's masterpiece "Exile On Main Street". "Stones In Exile" tells the story in the band's own words and through extensive archive footage of their time away from England and the creation of this extraordinary double album, which many regard as the Rolling Stones' finest achievement.

BONUS FEATURES

Extensive additional footage including interviews with all the band members, footage from "Cocksucker Blues" and Mick Jagger and Charlie Watts returning to Olympic Studios and Jagger's country house Stargroves where a lot of the early work on the album was done.

KEY SELLING POINTS

An official Rolling Stones release, timed to correspond with the new edition of the album, with previously unreleased bonus tracks, released in Australia late May.

Contributions from all the band members: Mick Jagger, Keith Richards, Charlie Watts, Bill Wyman & Mick Taylor.

Additional contributions from: Martin Scorsese, Jack White, Don Was, Caleb Followill (Kings Of Leon), Benicio Del Toro, Will.I.Am (Black Eyed Peas), Sheryl Crow, Anita Pallenberg, Ronnie Wood, producer Jimmy Miller, engineer Andy Johns, photographer Dominique Tarlé and sax player Bobby Keys.

BBC TV broadcast of the main 60 minute show on Sunday May 23rd.

Will be followed by release of the fully restored legendary Exile tour film "Ladies And Gentlemen...The Rolling Stones" in (the Australian) spring 2010.

MARKETING

Press ads in MAG, Rhythms, street press.

Cafe posters and postcards.

Airplay and competitions on national & regional radio.

BLACK SABBATH PARANOID

The latest addition to the acclaimed & award winning Classic Albums series tells the story behind the making of one of Heavy Metal's greatest achievements: "Paranoid" by Black Sabbath. Released in the autumn of 1970, the band's second album is regarded by many as the finest Heavy Metal album of all time, is hugely influential and has come to define the Heavy Metal genre. The four original members of Black Sabbath: Ozzy Osbourne, Tony Iommi, Geezer Butler and Bill Ward talk us through the making of the album, together with the original engineer via interviews, demonstrations, archive videos and use of the original multi-track tapes.

BONUS FEATURES

Over 40 minutes of additional interviews, archive footage and new demonstrations not included in the broadcast version.

KEY SELLING POINTS

Fully authorised and approved by the band.

One of the best selling rock albums of all time, certified 7 x Platinum (2.1m copies) in the UK, where it is Black Sabbath's only No.1 album.

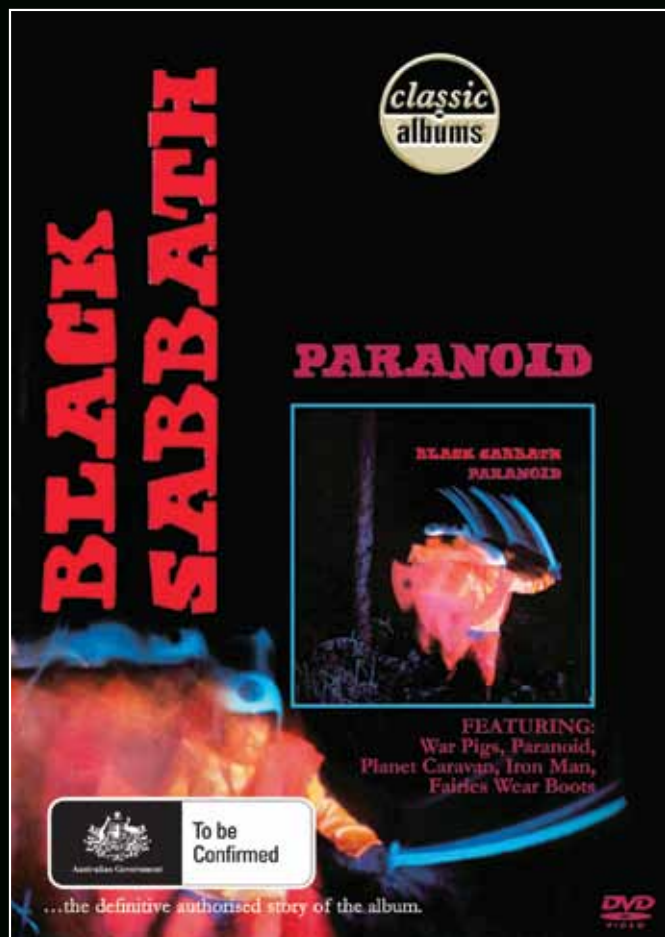

Features cuts from "War Pigs", "Paranoid", "Iron Man", "Fairies Wear Boots" and more.

MARKETING

Print media, online and community radio advertising campaign targeting metal, classic rock and guitar fans.

Internationally, ads in Classic Rock, Metal Hammer, Powerplay, Terrorizer and Record Collector will also hit the Australian metal audience.

Competitions on national and regional radio.
